

PALMER'S HISTORIC UNION STATION

IS POISED TO BE A CENTRAL LINK UNITING EAST-WEST AND NORTH-SOUTH RAIL LINES FOR A SEAMLESS AND EFFICIENT TRANSPORTATION NETWORK

Reasons to Sign the Town of Palmer Citizen Initiative Petition

“SHALL THE PROPOSED ORDINANCE, A COPY OF WHICH IS PRINTED HEREIN BE ADOPTED?

THE FOLLOWING LAND USE SHALL BE PERMITTED ONLY IN THE VILLAGE CENTER 1 (DEPOT VILLAGE) -VCI

PASSENGER RAIL DEPOT OR STATION AND RAIL PASSENGER BOARDING FACILITIES TO INCLUDE RAILROAD SIDING, PLATFORMS AND SWITCHES.”

1. Preserving Downtown Historic Depot Village

This petition ensures that any new passenger rail infrastructure—such as depots, stations, sidings, platforms, and switches—is established in Depot Village, Palmer’s historic center for passenger rail activity.

2. Maximizing Economic Growth & Taxpayer Benefits

Depot Village is the only viable location for a north-south passenger rail connection. This connection is essential to attracting the highest number of passengers, fostering economic growth, and bringing new businesses, jobs, and housing opportunities to the area. As a result, the increased tax revenue from commercial development and rising property values will expand the tax base, ultimately reducing the tax burden on local residents and providing much-needed relief to Palmer taxpayers.

3. Supporting Community Revitalization

The petition acknowledges that restoring passenger rail service to Depot Village is critical for Palmer’s economic resurgence. Without it, achieving sustainable growth and revitalization in the area will be extremely difficult, leaving taxpayers to shoulder a greater financial burden without the benefit of increased investment and development.
